DETAILED ACTION

Response to Amendment

1. Applicant's amendments and accompanying remarks filed 4/8/04 have been entered and carefully considered. Applicant's amendments are not found to patentably distinguish the claims over the prior art and Applicant's arguments are not found persuasive of patentability for reasons set forth herein below.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claims 7-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Johnson (4472461) in view of either Hodgson (3645835), Metcalf (4559938), Tani et al (4789413), Ward (5000172), Kay (5713842), Plews (5755681), or Takemoto (EP 0353972), as set forth in the previous actions.

Applicant argues that Johnson does not form a body facing surface. It is the examiner's position that this limitation does not define a patentable difference from the prior art. The combination set forth above teaches the same structure claimed by applicant. The phrase "body facing surface" amounts to an intended use of the structure and does not overcome the instant rejection.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
